

Asset Management for Industrial Laundries.

SIX ASSET MANAGEMENT

SIXAM

Asset Management for Industrial Laundries.

In today's industrial environment, efficient asset management is critical to ensure business continuity, contain costs, improve production performance and optimally schedule scheduled maintenance. The **SIX AM** module, an integral part of the SIX suite, was developed to address these needs, providing a comprehensive platform for monitoring, analyzing and optimizing production assets.

Its main features include::

Production Data
Collection

Productivity
Analysis

Maintenance
Management

SIX AM improves scheduling of operations, increases plant uptime and provides a clear view of resource performance, making personnel management and overall plant productivity more efficient.

ADVANTAGES

Resource optimization:

the system improves the use of technical and human resources, maximizing operational efficiency.

Tracking extraordinary maintenance:

enables accurate reporting of unplanned interventions, improving transparency and resource management.

Cost control:

SIX AM provides tools to monitor and contain costs associated with plant operation and maintenance.

Increased plant reliability:

analyzes historical and real-time data to identify critical issues and prevent failures, increasing asset availability.

Advanced maintenance management:

efficiently plans and organizes maintenance operations, reducing downtime and waste.

Strategic decision support:

transforms collected data into concrete action plans, providing objective support for operational and management.

TECHNICAL FEATURES OF THE SYSTEM

CLOUD READY

Web-based application designed for the cloud, accessible anywhere, anytime.

FULL INTEGRATION

Seamless integration with machinery, RFID devices, third-party devices and software.

USER FRIENDLY

Intuitive and easy-to-use application interface designed to simplify daily operations.

MULTI PLANT

Centralized management of multiple plants with a single installation.

MODULARITY AND CUSTOMIZATION:

Modular and fully configurable system to fit the specific needs of your laundry room.

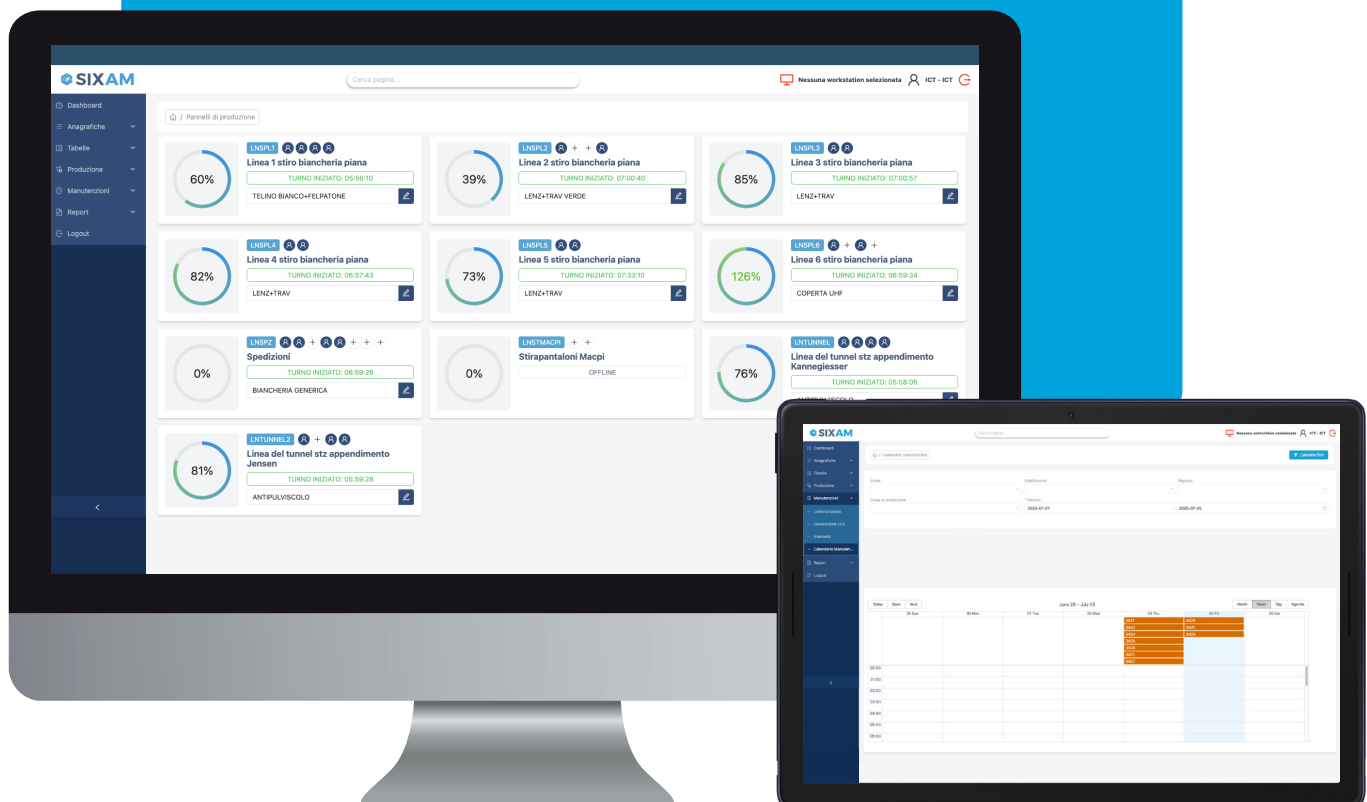

MULTI LANGUAGE

Automatic translation into the user's language for a personalized experience.
