

RFID Tracking Suite for Industrial Laundries.

LAUNDRY MANAGEMENT SYSTEM

SIXLM

RFID Tracking Suite For Industrial Laundries.

SIXLM is the cutting-edge solution designed specifically for industrial laundries seeking an accurate traceability system and flawless operational control. It optimizes every step of the process, ensuring high production standards and continuous service improvement. With SIXLM, your industrial laundry reaches new levels of efficiency and control.

SPECIFIC ADVANTAGES

Complete traceability: detailed tracking of each item movement by item type or individual garment (using barcodes or RFID TAGs)

AI-enhanced productivity: analysis of historical data, forecast calculation and KPIs to optimize processes and improve decision making

Efficient resource management: automatic control of workloads, garment dispersions and stock levels in each area of the laundry.

Information sharing: ability to share analysis and reporting both internally and with customers in a configurable, simple and effective way.

Logistics and transport: managing deliveries and pick-ups of garments at hospitals, hotels, restaurants and other companies

Process optimization: automation of repetitive tasks and elimination of unnecessary steps.

Process optimisation: automating repetitive tasks and eliminating unnecessary steps

TECHNICAL CHARACTERISTICS OF THE SYSTEM

CLOUD READY

web-based application designed for the cloud, accessible anywhere, anytime.

MULTI SITE

centralized management of multiple sites from a single installation

USER FRIENDLY

intuitive and easy-to-use application interface designed to simplify daily operations.

MULTI LANGUAGE

automatic translations into the user's language for a customized experience.

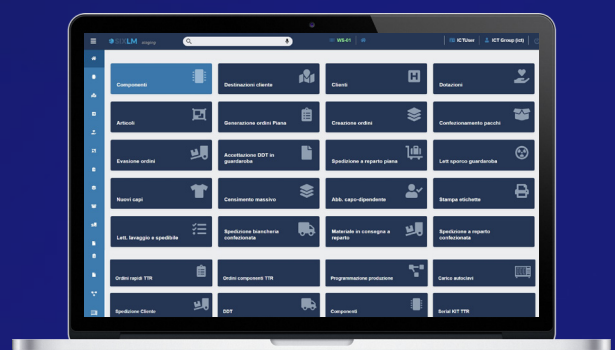

MODULARITY and COSTUMIZATION

modular and fully configurable system to fit the specific needs of your laundry.

COMPLETE INTEGRATION

seamless integration with machinery, RFID devices, third party software and devices.

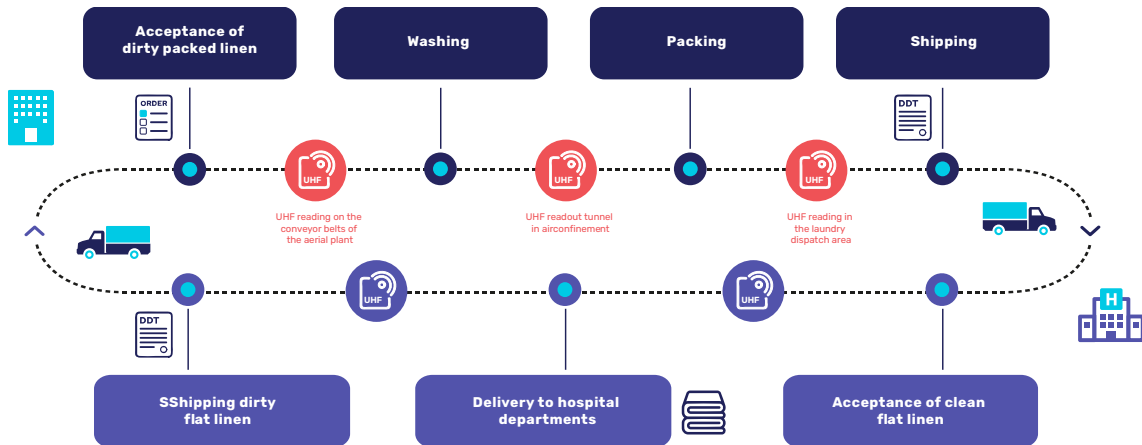

THE PROCESS

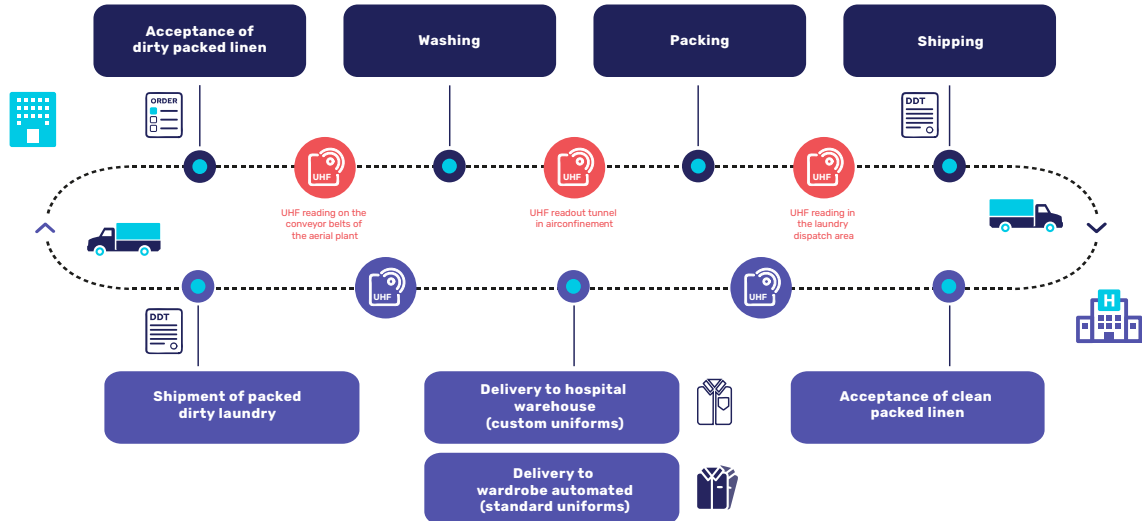

SIXLM Laundry Management is a comprehensive solution for the traceability of:

FLAT LINEN

PACKED LINEN/WORK CLOTHES

HARDWARE
